## Prospector Public Adjusters

**Your watchdog with the  
insurance company.**

**Your ally working with the contractor.**

**Your guarantee that the damage to your  
home will be repaired on budget, on time,  
and with the quality you expect.**

**And we cost you nothing.  
Not a cent.**

### **Prospector Public Adjusters. Your guarantee that repairs will be done right**

Let's face it – if your home is damaged, negotiating with an insurance company is probably the last thing you want to do. Your insurer is required by law to return your home to its pre-loss condition. But does the law ensure that you will get top-quality work, from a qualified contractor, using the best materials, and with the work done on time?

No.

That's why Prospector Public Adjusters exists. PPA serves as your advocate with the insurance company, so your claim will make you home whole again. We work with you, the insurance company, and your contractor to negotiate, to manage, and to control the job so you receive high-quality work, completed on time, and for the price you expect.

**We cost you nothing. No fee. No recovery. Ever.**

## PPA: how we work

After your home has been damaged, Prospector Public Adjusters steps in. We work directly with you and your contractor, even before you call the insurance company.

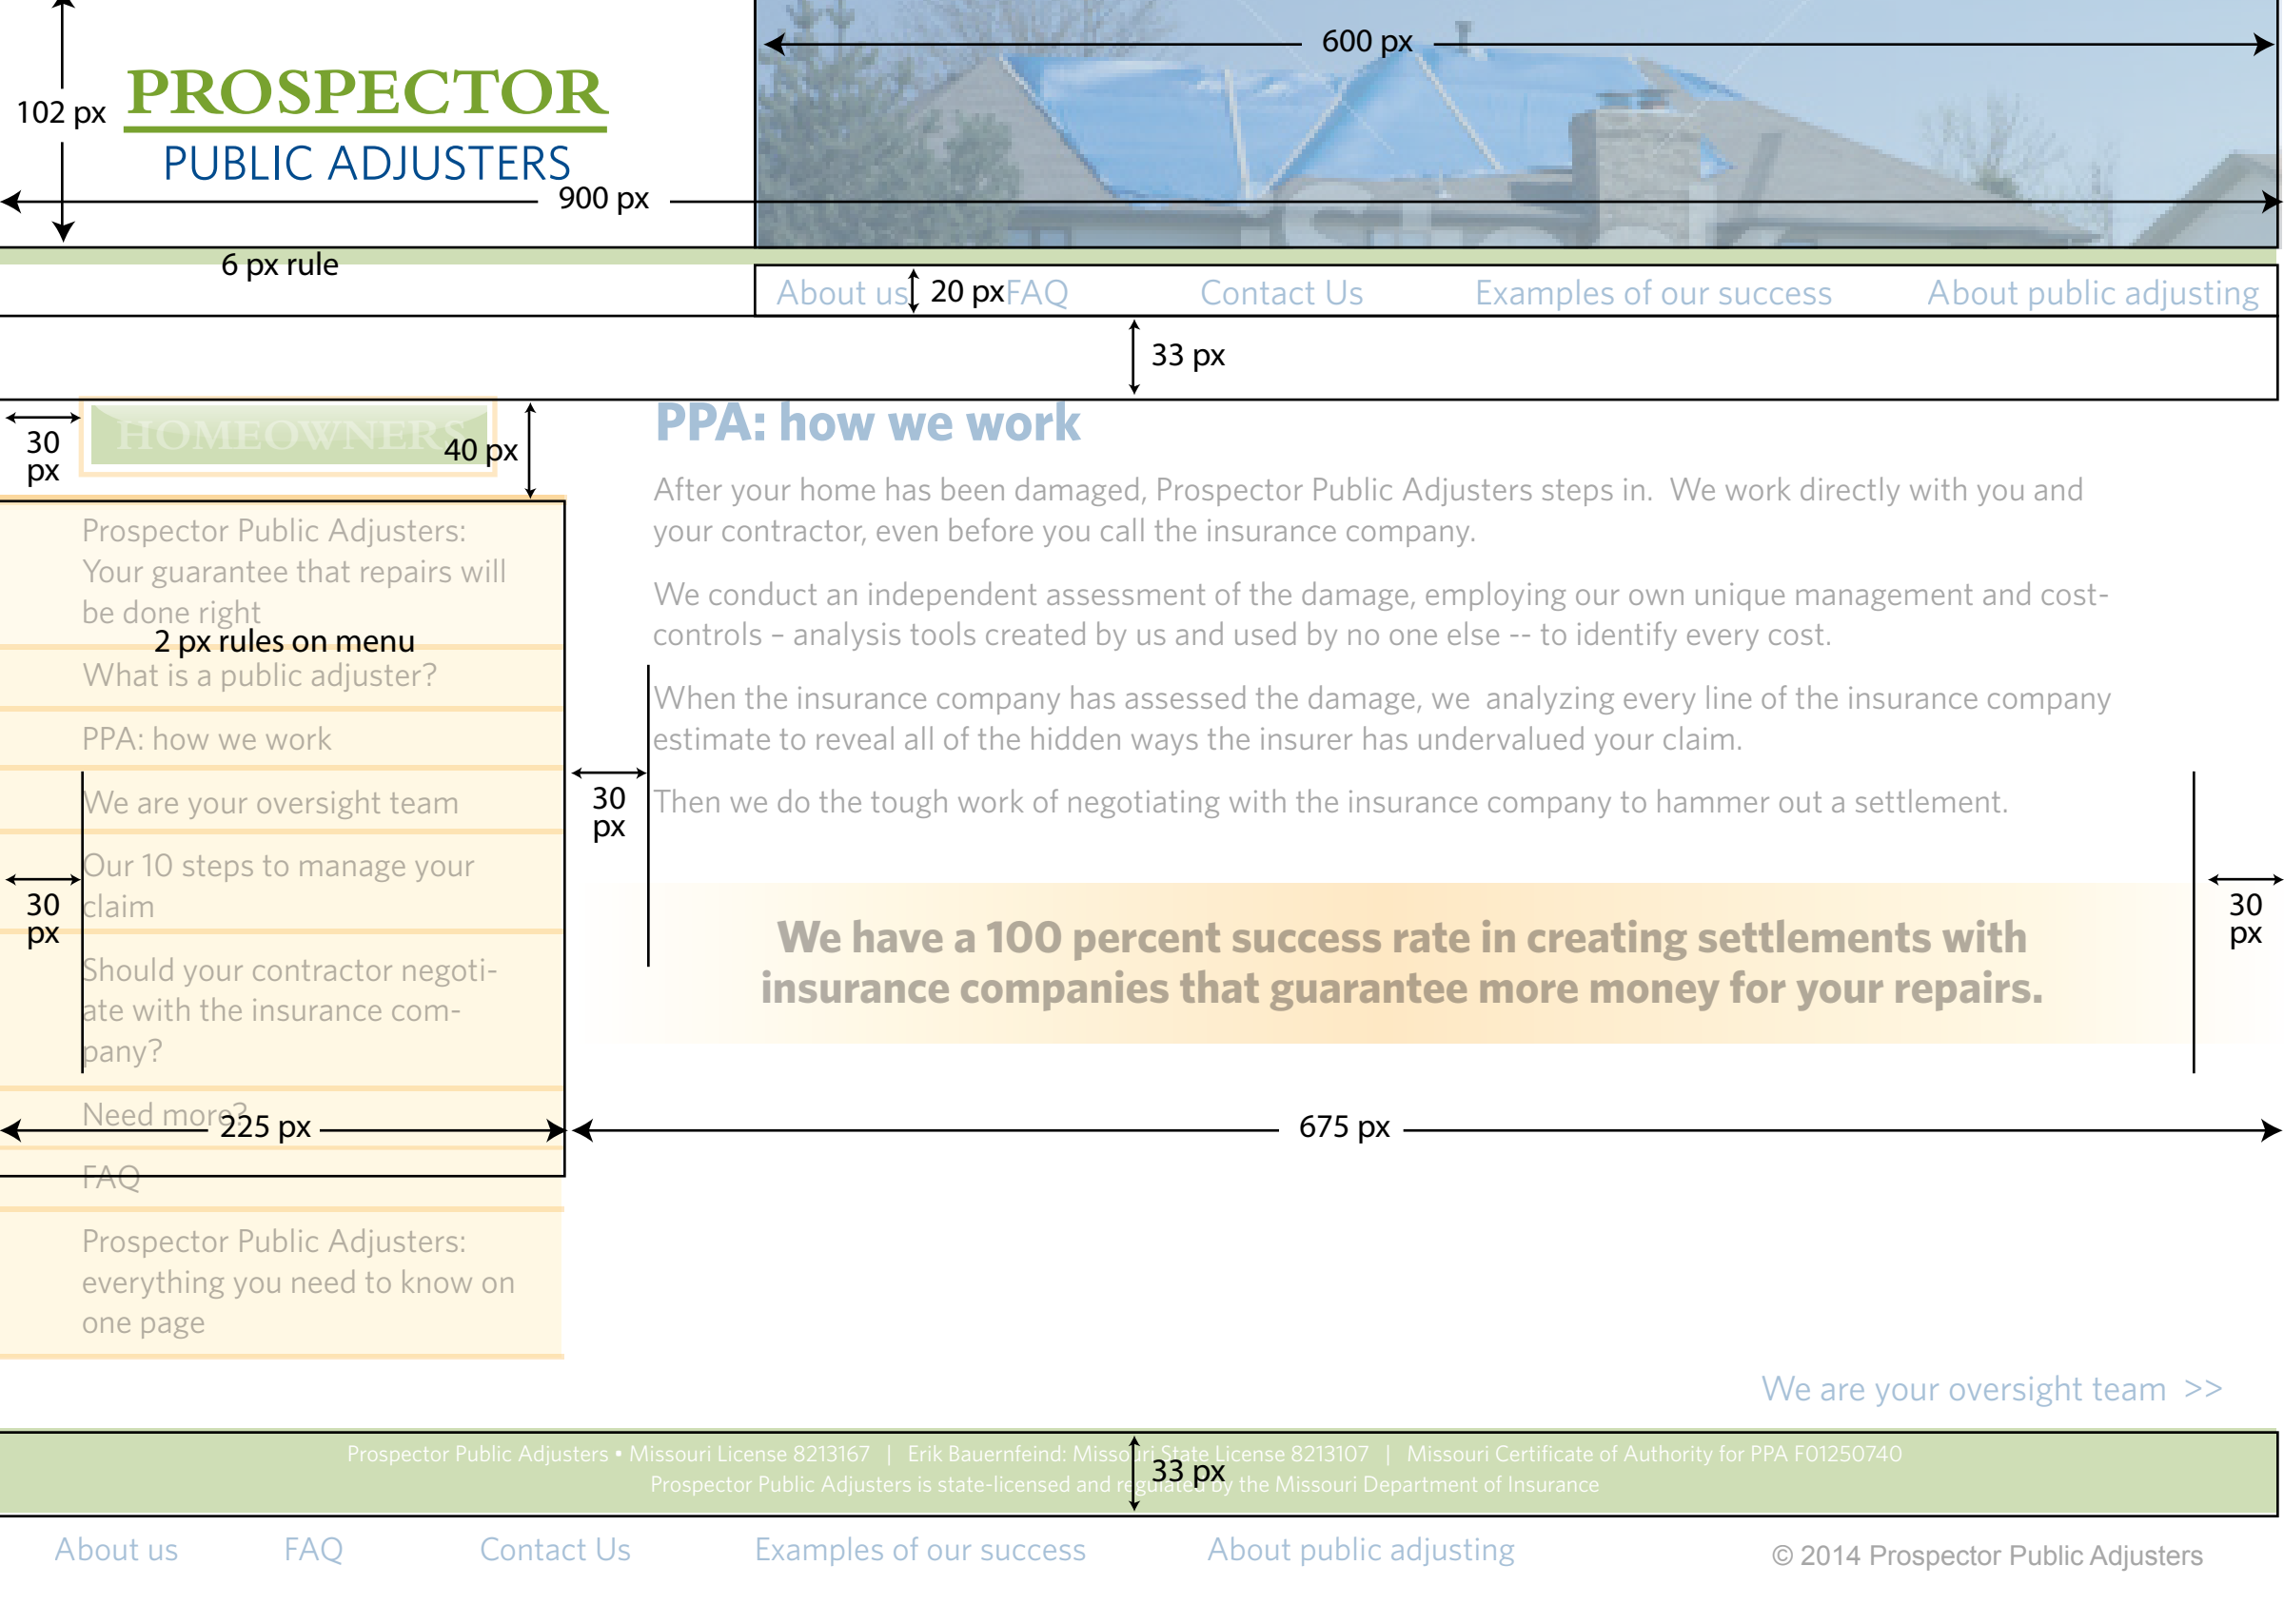

We conduct an independent assessment of the damage, employing our own unique management and cost-controls - analysis tools created by us and used by no one else -- to identify every cost.

When the insurance company has assessed the damage, we analyzing every line of the insurance company estimate to reveal all of the hidden ways the insurer has undervalued your claim.

Then we do the tough work of negotiating with the insurance company to hammer out a settlement.

**We have a 100 percent success rate in creating settlements with insurance companies that guarantee more money for your repairs.**

FAQ

Prospector Public Adjusters:  
everything you need to know on  
one page

Every year, contractors lose out on millions in claims money that insurance companies should pay, but don't.

With Prospector Public Adjusters, that will never happen to you.

It's no secret – insurance companies pay as little as possible for a claim. Insurers are armed with data, technology, and hard-nosed adjusters who settle a claim that provides as little cash as possible for you to do the work – let alone show a profit on the job.

You're in an uphill battle with the insurance company for every claim.

You may not know the financial surprises that await you.

And even after a settlement, you may discover you completed the job at a loss and can't explain why.

**That's where Prospector Public Adjusters comes in. PPA turns your problems into profit. Every time.**

**PPA: Your guarantee that you'll get the cash to do a job right**

Prospector Public Adjusters takes on insurance companies as your ally to guarantee that the insurer pays every cent a claim should receive. PPA uses unique management software and cost-controls -- created by us and used by no one else -- to identify every cost, and negotiate a full settlement with the insurance company.

When Prospector Public Adjusters is involved, you don't start work until you know every cost and what your profit should be.
